

### DSC 510 Final Project Proposal Instructions

**Post to D2L Discussion Final Project Group Formation the following information, and submit your annotated bibliography to the Submission folder by Sunday, September 27, 2020**

**11:59PM:**

- Project Team: Group Members
- Data:
  - Subject Area or Field of Interest
  - Source of Data (provide link to data)
  - Specific dataset(s)
  - Description of its scope (# metric variables, #categorical variables, #samples, multiple related tables?)
  - Explain your research questions?
  - Technology group plans to use for Project (i.e. Python, R, SPSS, Tableau, etc.)
    - How do you plan to use the technology?
- In addition, as you are forming your groups, remember the following requirements for datasets and groups:
  - a. Your group should have 3-4 people in it.
  - b. Please to make sure to have 1 liaison person for the group, who can submit assignments and ask me questions on behalf of the group.
  - c. Your healthcare dataset should be a **real and rich dataset with at least 200 observations and variables that are both categorical and continuous in nature.**
- **Lastly, you will be providing annotated bibliography of at least six peer-reviewed journal article references related to your dataset.**
- **How do the annotated references relate to your reference questions?**
